

## What is not sustainable?

Ski runs, grazing of livestock, plowing of soil, building fences, industry, single family homes, paves and tarred roads, logging activities, dams and reservoirs, power line construction, and economic systems that fail to set proper value on the environment.” UN’s Biodiversity Assessment Report.

## Hide Agenda 21’s UN roots from the people

“Participating in a UN advocated planning process would very likely bring out many of the conspiracy-fixated groups and individuals in our society... This segment of our society who fear ‘one-world government’ and a UN invasion of the United States through which our individual freedom would be stripped away would actively work to defeat any elected official who joined ‘the conspiracy’ by undertaking LA21. So we call our process something else, such as comprehensive planning, growth management or smart growth.”

**J. Gary Lawrence, advisor to President Clinton’s Council on Sustainable Development.**

**“Individual rights will have to take a back seat to the collective.”**

**Harvey Ruvin, Vice Chairman, ICLEI. The Wildlands Project**

**Is this guy talking about America?**

**Yes ,sadly he is!**

**Educate yourself**

**Say NO to**

**AGENDA 21!**

**It’s coming to a town near you!**

With a word of Thanks

# What is Agenda 21?

---

# Why should You Care?

*Agenda 21 and Private Property*

*“Land...cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principal instrument of accumulation and concentration of wealth, therefore contributes to social injustice.”*

*From the report from the 1976 UN’s Habitat I Conference.*

# America must remain Independent! Say NO to Global Governance! Say NO to Agenda 21!

## What is Agenda 21?

Agenda 21 is an action plan of the United Nations (UN) related to sustainable development and was an outcome of the United Nations Conference on Environment and Development (UNCED) held in Rio de Janeiro, Brazil, in 1992. It is a comprehensive blueprint of action to be taken globally, nationally and locally by organizations of the UN, governments, and major groups in every area in which humans directly affect the environment

## **What is Sustainable Development?**

According to its authors, the objective of sustainable development is to integrate economic, social and environmental policies in order to achieve reduced consumption, social equity, and the preservation and restoration of biodiversity. Sustainablists insist that every societal decision be based on environmental impact, focusing on three components; global land use, global education, and global population control and reduction.

## **Social Equity (Social injustice)**

Social justice is described as the right and opportunity of all people "to benefit equally from the resources afforded us by society and the environment."

## **Redistribution of wealth**

Private property is a social injustice since not everyone can build wealth from it. National sovereignty is a social injustice. Universal health care is a social injustice. All part of Agenda 21 policy.

## **Economic Prosperity**

Public Private Partnerships (PPP). Special dealings between government and certain, chosen corporations which get tax breaks, grants and the government's power of Eminent Domain to implement sustainable policy. Government-sanctioned monopolies. Local Sustainable Development policies, Smart Growth, Wildlands Project, Resilient Cities, Regional Visioning Projects, STAR Sustainable Communities, Green jobs, Green Building Codes, "Going Green," Alternative Energy, Local Visioning, facilitators, regional planning, historic preservation, conservation easements, development rights, sustainable farming, comprehensive planning, growth management, consensus.

## **Who is behind it?**

ICLEI – Local Governments for Sustainability (formally, International Council for Local Environmental Initiatives). Communities pay ICLEI dues to provide "local" community plans, software, training, etc. Addition groups include American Planning Council, The Renaissance Planning Group, International City/ County Management Group, aided by US Mayors Conference, National Governors Association, National League of Cities, National Association of County Administrators and many more private organizations and official government agencies. Foundation and government grants drive the process.

## **What gives Agenda 21 Ruling Authority?**

More than 178 nations adopted Agenda 21 as official policy during a signing ceremony at the Earth Summit. US president George H.W. Bush signed the document for the US. In signing, each nation pledge to adopt the goals of Agenda 21. In 1995, President Bill Clinton, in compliance with Agenda 21, signed Executive Order #12858 to create the President's Council on Sustainable Development in order to "harmonize" US environmental policy with UN directives as outlined in Agenda 21. The EO directed all agencies of the Federal Government to work with state and local community governments in a joint effort "reinvent" government using the guidelines outlined in Agenda 21. As a result, with the assistance of groups like ICLEI, Sustainable Development is now emerging as government policy in every town, county and state in the nation.

Agenda 21 gives the United Nations the right to Global Governance of the United States of America.

This action will terminate your rights to Freedom of Choice

## **What can You Do?**
